

ATTEND THE 4TH ANNUAL

LYSOSOMAL DISEASE SUMMIT

2-3 OCTOBER 2026

RYDGES MELBOURNE – MELBOURNE, AUSTRALIA

The [Lysosomal Disease Summit](#) convenes researchers, clinicians, industry representatives, and patient advocacy organisations from the Asia-Pacific region and beyond.

Now in its fourth year, the Summit provides an established forum for the exchange of current research and clinical findings related to lysosomal diseases, supporting multidisciplinary collaboration across discovery, diagnosis, and therapeutic development, with consideration of patient and community impact.

PROGRAMME HIGHLIGHTS

- Scientific presentations from global and APAC-based experts
- Multidisciplinary perspectives across research, diagnostics, and treatment
- Opportunities for discussion, collaboration, and professional exchange

SPONSORSHIP OPPORTUNITIES

Opportunities are available for organisations seeking to support the Summit and engage with the global lysosomal disease community. Contact [Ed Cray](#) to explore options.

INFORMATION & UPDATES

For the latest information on programme development, registration, and participation, visit LysosomalDiseaseSummit.org. Updates will be posted as details become available.
